Welcome to My First Web Page

This is my first paragraph. I'm learning how to use basic HTML tags to build web pages. It's fun and simple!

This is my second paragraph. HTML helps structure content using tags, and I can already create headings, lists, and add images.

Unordered List Example

- An unordered list can be specified with the tags and .
- An unordered list typically contains a number of list items that can be specified with tags and .
- After you have created your unordered list, check what happens when you convert it to an ordered list by replacing the tags.

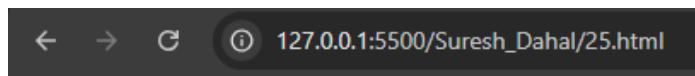

Image Example

<div class="content">
    <h2>About Us</h2>
    <p>
        Welcome to Explore Kathmandu — your guide to the historical heart of Nepal.
        Our mission is to showcase the rich cultural and spiritual heritage of Kathmandu and
        promote sustainable
        tourism.
    </p>
    <p>
        Whether you're seeking ancient temples, vibrant festivals, or peaceful spiritual
        retreats,
        Kathmandu offers something truly unique. Through this website, we aim to help both
        local and international
        tourists
        explore the wonders of the city, plan their visits, and appreciate its timeless beauty.
    </p>
    <p>
        We are a team of culture enthusiasts, designers, and travelers committed to preserving
        and promoting
        the heritage that makes Kathmandu unforgettable.
